

NEWSPAPERS HELPED CAMPAIGN

NEW YORK, March 29.—Newspaper advertising was given as one of the chief factors in the success of the physician church drive for \$40,000 for church work at home and abroad, in a statement summarizing results of the campaign, issued yesterday by Rev. Dr. Charles Hale, publicity director of the drive.

TAH'S PRODUCTION OF COKE IS SHOWING UP WELL

MONTHLY IN EXCESS OF PREVIOUS WEEKLY REPORTS.

Washington, D. C., March 31. Analyses of working conditions as reported by the operators of three coking plants in the country over with a total production of 5,623,148 net tons and amount of 10,801,436 tons during the week ended March 15th at 72 per cent of their full time, as compared with 53 per cent during the week ending March 16, 1918. Loss of full time during the week ended March 15th totaled to 48 per cent and showed a shortage of 1.4 per cent, labor shortage losses of 1.1 per cent, losses due to mine disability 1.8 per cent, lack of market losses 2.8 per cent and losses due to other causes 0.9 per cent. With the exception of labor conditions, which remained about the same as the corresponding week of last year, variances were insignificant during the week of March 15th of this year, while during the same week of 1918 this factor caused losses of 22.8 per cent. On the other hand, during the corresponding week of last year, lack of market losses amounted to 12 per cent, while during the current week it was the real limiting factor. The loss of time on St. Patrick's Day, March 17th, brought about a 7 per cent decrease in the output of bituminous coal during the week ended March 25th, compared with the week of the 15th. The production during the current week is estimated at 4,477,000 net tons as compared with 3,942,000 net tons during the week of March 15th and 11,121,000 net tons during the corresponding week of last year. The daily average per working day is estimated at 1,250,000 net tons and is considerably below the daily average per working day during the present year to date, estimated at 1,795,000 net tons, and last year estimated at 1,762,000 net tons. The coal production for the period April 1, 1918, to date is estimated at 349,128,000 net tons as against 520,127,494 net tons during the preceding year.

In the Coke Fields.

The production of beehive coke in the United States during the week ended March 25th is estimated at 404,232 net tons as compared with 429,446 net tons during the week ending March 15th and 623,927 net tons during the corresponding week of 1918. Production in Virginia, Kentucky, Washington and Utah was slightly in excess of that reported for the week preceding, while in other states production was somewhat lower than the same during the week of March 15th. The daily average per working day during the week ended March 25th is estimated at 67,370 net tons, as against 70,175 net tons for the corresponding week of 1918. Total production of beehive coke for the period January 1st to date is estimated at 5,814,012 net tons and is considerably below the production during the same period of 1918 when the output was estimated at 6,403,029 net tons.

The production of anthracite in the United States during the week ended March 25th is estimated at 1,174,000 net tons, as against 1,206,000 net tons during the week ended March 15th and 2,070,000 net tons during the corresponding week of 1918. The daily average per working day during the current week is estimated at 185,000 net tons, as compared with 200,000 net tons for the same period of 1918. The production from April 1, 1918, to date is estimated at 30,000,000 net tons and is 6,081,000 net tons or 7.2 per cent behind the production of the 1918 coal year.

Bituminous Shipments. The shipments of bituminous coal from the tidewater harbors to all points during the week ended March 25th are estimated at 362,965 net tons and are in excess of shipments during the week ended March 15th by 124 net tons. The tonnage loaded at Hampton Roads was also in excess of that reported during the week of March 15th, while a slight decrease occurred in the tonnage loaded at Baltimore.

Tidewater shipments to New England during the week ended March

The Sun

VOLUME 4; NUMBER 45 EVERY FRIDAY APRIL 4, 1919

THE WEATHER.

The Sun Special Service. DENVER, Colo., Apr. 4, 7:45 a. m. —Unsettled with rain tonight or Saturday. Warmer in eastern portion tonight and colder Saturday. Men advertise courses to improve the memory when they would cause greater happiness by giving courses in forgetting things.

Conflicting Thoughts

NEXT MONDAY, THE GREEK INDEPENDENCE DAY

Next Monday, April 7th, is the anniversary of the independence of Greece. The Greeks credit the United States of America with helping them in their hour of need. Daniel Webster and President Monroe were the first to plead for and to acknowledge the independence of Greece in the perilous struggle of 1821-29. These two statesmen and Dr. Howe of Boston, Mass., are declared to be three great American figures for whom Greeks all over the world feel profound reverence and gratitude. Another American, a poet, Fitz-Greene Halleck, immortalized one of the Greek heroes, Marcos Buzarris, in a poem familiar to all American school children of the past three-quarters of a century. At midnight in his guarded tent, the Turk no longer dreams of Greek supplication. The present war has put an end to all that foolishness. He had a rude awakening nearly a century ago, and had it not been for the politicians of Europe he would have long since made his exit. Many Englishmen also took an active interest in Greek affairs in 1821 and the succeeding years of the war for liberation from the yoke of the Turk. Lord Byron, for instance, assembled a force to fight against the hosts of the sultan. Fate denied him the glory of dying sword in hand, for he caught cold and expired before he could march against the enemy. But his heart was with the Greeks so long as he lived, and there is a street in Athens bearing his name, if we are not mistaken. Leading statesmen of both the United States and Great Britain have sympathized with Greece in all of her struggles against the fanatical followers of Mahomet during the past century, and the victories won in the Balkan wars of a few years ago were hailed with profound satisfaction in both English speaking countries. It had been intended by the Greeks of Carbon county to celebrate at Price on Monday next, but owing to conditions at the coal camps it has been postponed to Sunday, April 13th, at which time memorial services will also be held for the Greek soldiers who gave up their lives in the world war. Large crowds are expected here on Sunday week from all parts of the county.

MANY ARE NOW BACK HOME

Eastern Utah Soldiers Arrive From Overseas At Eastern Ports. Some twenty or more of Carbon county's soldier boys have arrived at Eastern ports from overseas during the past ten days and with others from Eastern Utah are now en route to Camp Pajon, Kan., to be discharged from the service. The Salt Lake City dailies, which have special dispatches from New York, give these names: Price—Fred E. Woods, Jr., Parley Rhoad, Stephen Olson, Arthur W. Horsley, Clarence H. Stevenson, Angelo Pappageorgian. Helper—August Litizette. Sunnyside—Nicholas Ionias, Nidilo Kazita, William Lilly, Mark Menoni, Andrew Kouzinas. Kenilworth—Attilio Colombo, Joseph Pavignani. Winter Quarters—Thomas Riggs, Jr. Wellington—George W. Langrod. Castle Gate—George M. Richards, Charles Bianco, Alfred Mills. Scofield—Harry H. Dunn. Liberty—W. Clark. Latada—Henry K. Goodart. Castle Dale—Chester E. Christensen, Leimon C. Larsen, William I. Rhodes, Stephen L. Bunnell. Emery—George L. M. Williams, Harold W. Williams, Ernie M. Simon, Nels H. Jensen. Ferris—John Thomas. Grandville—James C. Vaughn. Green River—Phillip G. Dufford.

ELEVEN BODIES TAKEN OUT

Explosion in Colorado Mine Claims Very Large Toll. TRINIDAD, Colo., March 31.—Eleven bodies, buried in some cases until identification was difficult, had been recovered late tonight from the Empire mine of the Empire Coal company, near Aguilar, where a gas explosion occurred early today. Death apparently was instantaneous, the recovered bodies with one exception being found huddled together under piles of debris. Two other bodies had not yet been recovered. Grief-stricken mothers, wives and sisters who had waited anxiously at the mine entrance in a heavy rain, aided in identification of the dead as they were brought to the surface. The cause of the explosion has not been determined. The body of John Lundquist was recovered this afternoon. Of the thirty-six men who were in the mine when the explosion occurred, twenty-three made their way out in safety. The explosion, as indicated by conditions encountered by the rescue gangs, was confined to a small area about twenty-five hundred feet from the mouth of the mine. Wreckage at this depth barred the way of the helmet-men, but air conditions are good, and the ventilating fan is working. It is feared, however, that the men caught in this part of the mine were killed instantly by the explosion or died soon after from the afterdamp which usually develops from an explosion of gas. Where are all the children that used to be forced by fond parents to speak a piece before company that never wished to hear them? (Continued on page four.)

CONSULTING ENGINEERS CHOSEN

Richard R. Lyman and M. P. Pack to Assume Responsibility For the New System.

Price's city council with the consent of the advisory committee to that body last Tuesday evening at its regular session entered into a contract with Apostle Richard R. Lyman and M. P. Pack as consulting engineers for the new water system being undertaken at this time. The latter is this week on the job with the local engineers for the work, W. W. Jones and E. K. Olson, and within the next few days is to have the preliminary line from this city to Colton run. For a consideration of 2 per cent of the cost price of the work the Salt Lake City firm is to look after and pass upon everything. The firm's pay will run around thirty-four hundred dollars by the time the system is turned over to the people. Brown & Kleinbach, also from Zion, had in a proposition which amounted to about the same thing in one instance—thirty-five hundred dollars. Their second offer was to give the work a portion of their time for three thousand dollars. J. C. Milton, also of Salt Lake City, proposed to look after the construction for eight hundred and fifty dollars. In the employment of Lyman and Pack the city is at no expense beyond the compensation agreed upon except in conveying one or both of them from Price to or from the work. After the employment of Lyman and Pack had been unanimously agreed to the council and advisory board went into the matter of the contract with W. W. Jones and E. K. Olson for the surveying, mapping and the like, which calls for five thousand dollars. Some slight changes were made in this and a better understanding had. Mayor Wooten and City Recorder Gilmore were then authorized to sign on behalf of the city. There are practically no changes from the version previously given by The Sun. At the request of City Attorney Woods, who asked for assistance, Judge Ferdinand Erickson of Salt Lake City, was retained to assist Judge Woods during the time his services are required in a legal way. There will be plenty of work for the legal department in the bond matter, drawing of contracts and the like. With the employment of civil engineers and consulting engineers now out of the way everything is going along nicely and within the coming two or three weeks the line from Price to Colton should have been located. Then will come the advertising for bids for the actual construction of the system of twenty-seven miles more or less. Whether this will be let out as a whole or in sections remains to be determined. Surveying of the line, say the engineers, is likely to begin at the Colton end. Everyone so far connected with the actual work is most enthusiastic and no time is to be lost in getting right down to actual details. The engineers, city council and advisory board figure that by early fall the citizens here should be using water from the new source of supply. Helper, Cannonville, Castle Gate, Heiner, Utah railway and other interests, including Kenilworth, will undoubtedly be purchasers of better water from this municipality if they do not actually participate in the building of the system. Wellington is seriously considering the matter of coming in on the proposition. That town could raise at least twelve thousand five hundred dollars for an extension from Price there.

REAL ESTATE CHANGES HANDS

Transfers During the Past Few Days Quite Numerous. If anyone doubts that Price real estate is in greater demand than at any time in the history of this city he or she has only to consult the records in the county recorder's office at the courthouse. The reason? Better water as soon as men and money can put in a twenty-seven mile system between Price and Colton. During the past week D. Bergera took an option on the Methodist church property on Main street, the consideration being given as \$10,500. It is understood that the new Italian-American bank, stock in which is being placed, will have a place of business on a portion of the ground. M. E. Wallops, the attorney, has closed a deal for the Mrs. L. O. Hoffmann home in the northeast portion of the city. Consideration, \$4200. The ground comprises a quarter block. Mrs. Hoffmann has sold also the dwelling and half block of ground in the eastern portion of the city occupied by H. J. World. Joe Media is the purchaser at \$2000. Gus Theodorius has sold the residence at the corner of Main and Sixth, occupied by Judge F. E. Woods, to the Methodist congregation. Consideration, \$4000. The church will erect a new edifice. John Raymon has purchased from Mrs. Isabella Murphy the home and lot on North Ninth street, occupied by Frank L. Burkie. Price, \$1700. J. G. Callaway lately purchased an east front on North Ninth street from Erastus Anderson and has let the contract for a modern six-room home. Work begins as soon as the weather will permit. Matt Gilmore is dickering with C. C. McWhinney of Long Beach, Calif., for the latter's home at Price. A deal is expected to be closed any day. Carlos Gunderson has sold the former L. A. Lauber home to A. Kopf. The consideration is given as a thousand dollars. A. W. McKinnon, who recently sold his East Main street home to Martin Blane, has bought the Sam Lewis property on North Ninth street and is preparing plans for a modern six or eight-room home. Besides those mentioned The Sun has heard of a half-dozen or more transfers of Price realty that are likely to be closed any time.

CARBON COUNTY SPENDING LARGE SUMS FOR SCHOOLS

It cost the state of Utah an average of \$32.62 per capita of school population to educate the children of the state during the school year 1917-1918. The average cost per capita for teacher salaries was \$39.64. The school population of the state was 122,424. The highest expense per capita was in Grand county, where the cost was \$73.24 as it was the highest cost per capita for teachers salaries. North Summit was second highest per capita with \$48.22. Then comes Jordan with \$44.94, Rich with \$43.17, Tonalie \$42.72, Park City \$42.19, Morgan \$41.95, South Summit, \$40.78 and Salt Lake with \$40.08. Carbon county has a school population of 3118. Teachers salaries per pupil for the time was \$22.49. General expenses per capita \$38.35.

BASEBALL MEETING CALLED FOR SUNDAY AFTERNOON

Sam L. Williams has issued a call for a meeting of the baseball fans of the county at the office Judge F. E. Woods in Price next Sunday at 2 o'clock of the afternoon to form a county league. A representative from each place is expected to be present to help arrange a schedule for the playing season. Also, to consider other matters to come up in connection. Judging from the interest already being shown and responses received to word sent out, the next Sunday meeting is going to be well attended. The Price club had its first practice last Sunday afternoon, and two or three a week will be had from now on. There is much interest everywhere in a county league.

Elmo ward will hold memorial services next Sunday, April 6th, for Sheldon Axelson, son of Mr. and Mrs. Adolph Axelson, who was killed in France, the only Emery county boy to lose his life in action.

NEW BANKING INSTITUTION BEING ORGANIZED LOCALLY. Price is to have a third banking institution and if things go as expected it will be doing business within the next few weeks. It is to have a capitalization of a hundred thousand dollars and the name, Italian American bank, though this may be changed. During the past week stock subscriptions have been collected and it is understood the greater portion of the capital is now about pledged. Prominent among the subscribers to the stock of the new concern are Wallace A. Levery, Frank Gross, Peter Barbaglio, D. Bergera, Henry Revor, Martin Blane, Aug Litizetti, Sam L. Williams, E. Bernardi and several Italians and others at Helper. It has been stated that the room east of the A. D. Sutton drug store has been leased and will be fitted up for the purpose. Just how soon the new institution will be ready for business is not stated.

CARBON COUNTY LEADER IN WAR SAVINGS STAMPS

Detailed report of war savings stamp activities for the year 1918, for Utah, has been received by George T. Odell, state director of the national war savings stamp committee. It shows that Carbon county leads the state in sales per capita—every man, woman and child in the county buying an average of \$19.38 worth. A total of \$3,014,540 in stamps were sold during the year in the entire state. Judge A. J. Weber of the Utah supreme court and prominent in the affairs of the Loyal Order of Moose will be at Hiawatha this evening, where he delivers a lecture on the objects and purposes of the order. A reception and banquet follows.

MOST ATTRACTIVE TERMS FOR NEXT LIBERTY LOAN

WASHINGTON, D. C., March 28.—Terms of payments in the new victory liberty loan announced today are the most liberal ever offered by the government. Deferred payments may be extended over a period of six months, from May 10th to November 11th. Secretary Glass announced today that 10 per cent of subscriptions would be due with application on or before May 10th, another 10 per cent on or before July 10th, and four subsequent installments of 20 per cent each on or before August 12th, September 9th, October 7th, and November 11th. Accrued interest on deferred installments will be due with the last payment. Payment in full can be made May 10th, if desired, the 10 per cent with application having been paid prior to May 10th. Payment also can be completed on any installment date with accrued interest.

Mr. and Mrs. J. S. McGuire, old-time citizens at Woodside, have rented their two ranches there and have come to Price to make their home.
